Scope Note for: *Obesity*

MeSH HEADING: OBESITY

SCOPE: A status with BODY WEIGHT that is grossly above the acceptable or desirable weight, usually due to accumulation of excess FATS in the body. The standards may vary with age, sex, genetic or cultural background. In the BODY MASS INDEX, a BMI greater than 30.0 kg/m2 is considered obese, and a BMI greater than 40.0 kg/m2 is considered morbidly obese (MORBID OBESITY).

NOTE: obese hyperglycemic mice are indexed MICE, OBESE: do not add OBESITY or HYPERGLYCEMIA unless disease particularly discussed; /ther consider also OBESITY MANAGEMENT

http://ovidsp.tx.ovid.com - Ovid: A...

The Abstract (AB) field summarizes the content of the document and generally describes the background, methods, results, and conclusions. Both English and foreign language abstracts are searchable using AB. Only documents which appeared in print with an abstract will include an abstract in this database. Stopwords such as "of" or "the" will display in documents but are not searchable and will not appear in the Abstract index.

Help Text
Click the plus/minus (+/-) button to add/remove the field to the "My Fields" Area.
Click the "I" button next to the field to browse the index for the selected item
Items marked with a magnifying glass icon can only be searched. No index is available.
