# **ICPSR** 이용 매뉴얼

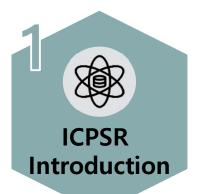

### ICPSR?

ICPSR은 전세계 약 790여 개 학술연구기관의 컨소시엄으로 운영되고 있는 세계 최대의 사회과학 조사자료 아카이브입니다.

전 세계 320,494건 이상의 양적 연구 자료

국제적 자료

다양한 분야의

자료

19개 주제분야별 자료 검색 종단적, 횡단적 연구가 가능한 280여 개 시리즈 자료 제공

설문항 데이터베이스

수업 활용

양적연구방법론 수업 활용 가능 Data-Driven Learning Guides 제공

설문항 검색 및 비교 가능

### ICPSR?

#### 다양한 주제 분야

세계 각국에서 다양한 분야별로 수집한 16,500여 건의 조사자료와 320,494여 개의 수치파일을 제공합니다.

### 접속 방법

ICPSR은 학교 인증과 개인회원 로그인의 두 가지 절차가 필요합니다.

#### STEP 1. 학교 인증

#### 교내 PC에서 접속 시

- ICPSR은 기관회원의 IP 주소를 자동으로 인식합니다.
- 교내 PC에서는 ICPSR URL(<a href="https://www.icpsr.umich.edu/">https://www.icpsr.umich.edu/</a>)로 직접 접근하면 IP를 자동으로 인식합니다.

#### 교외 PC에서 접속 시

- 학교 홈페이지 또는 도서관/ 자료실 홈페이지에 접속하여 로그인 후, ICPSR로 접근하면 자동 인식 됩니다.

### 접속 방법

#### STEP 2. 개인 회원 로그인

▲ ICPSR은 학교 IP 인증 후 개인 회원 로그인을 해야만 모든 기능을 이용할 수 있습니다.

### 접속 방법.

#### STEP 2-1. 계정 생성 Google/Linkedin의 계정을 Log into ICPSR 연동하여 로그인할 수 있으며 Use MyData ICPSR에 직접 가입할 수도 있습니다. You must set your browser to accept cookies in order for login to succeed. Your login s last for nine hours (or until you log out). LinkedIn. Email: **G** Google Email Password: in LinkedIn Password **ORCID** Log In Request a new password New User? By creating a MyData account, you can: Download data and use online analysis tools . Download data available only to ICPSR members, if you are from a member institution Generate utilizati Update your acco ICPSR에 직접 가입하실 경우, · Access your past Access Summer P **Create Account** Create Account를 클릭하시면 됩니다.

#### DATA CONTENT

#### Terms of Use

Please read the terms of use below. If you agree to them, click on the "I Agree" button to proceed. If you do not agree, you can click on the "I Do Not Agree" button to return to the home page.

ICPSR adheres to the principles of the CoreTrustSeal Core Trustworthy Data Repositories Requirements, which, in part, require the data consumer to comply with access regulations and applicable licenses imposed both by law and by the data repository, and to conform to codes of conduct that are generally accepted in higher education and scientific research for the exchange and proper use of knowledge and information.

These data are distributed under the following terms of use, which are governed by ICPSR. By continuing past this point to the data retrieval process, you signify your agreement to comply with the requirements stated below:

#### Privacy of RESEARCH SUBJECTS

Any intentional identification of a RESEARCH SUBJECT (whether an individual or an organization) or unauthorized disclosure of his or her confidential information violates the PROMISE OF CONFIDENTIALITY given to the providers of the information. Therefore, users of data agree:

• To use these datasets solely for research or statistical purposes and not for investigation of specific RESEARCH SUBJECTS, except when identification is authorized in writing by ICPSR (icpsr-help@umich.edu)

• • • •

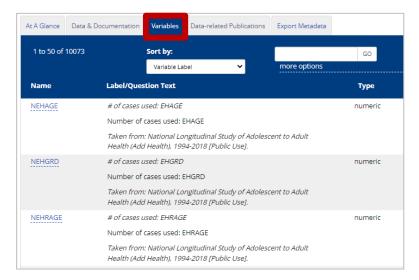

In addition, the National Archive of Criminal Justice Data stipulates the following conditions:

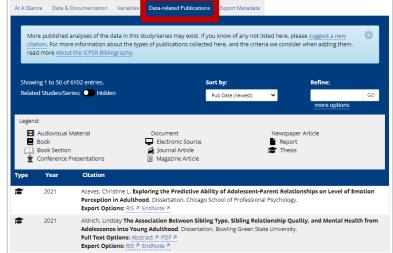

Federal law and regulations require that research data collected by the U.S. Department of Justice or by its grantees ar research or statistical purposes. The applicable laws and regulations may be found in the United States Code, 34 USC States

#### **BROWSE BY SERIES**

#### THEMATIC DATA COLLECTIONS

#### THEMATIC DATA COLLECTIONS

#### Thematic Data Collections

ICPSR partners with several federal statistical agencies and foundations to create collections organized around specific topics. These thematic collections bring a dynamism to ICPSR from which the broader social science research community benefits. The sponsors provide new data (in most cases free to everyone), which stimulate more research. The funded collections and ICPSR work together to build additional infrastructure for data discovery and use.

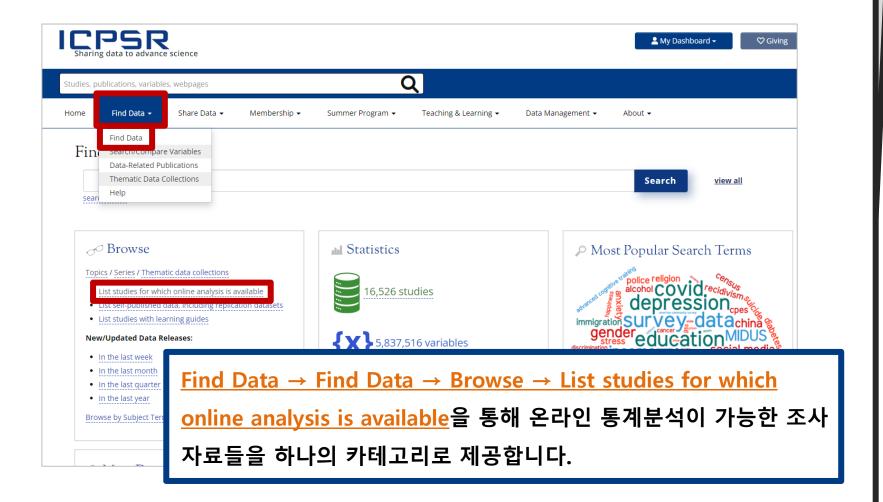

- · 사회과학분야에서 중요한 22가지의 주제 분야에 대해서 미국 통계 에이전시나 재단들과 협력하여 자료를 수집하고 제공합니다.
- · 관심 분야나 기관의 링크를 클릭하면 관련 데이터 베이스 사이트로 이동합니다.

Project Description				
		Notes		
Summary  The Korean General Social Survey (KGSS) is the South Korean version of the General Social Survey (GSS), closely replicating the original GSS of the National Opinion Research Center at the University of Chicago. Each round of the KGSS typically includes the topical module surveys of the International Social Survey Programme (ISSP), and/or the East Asian Social Survey (EASS), an international survey network of four GSS-type surveys from countries in East Asia (including China, Japan, Taliwan, and South Korea). Respondents were asked for their opinions on Korean society, politics and reunification, economic issues, social equity and inequality, and suicide. Additional questions were asked about the everyday life, household, family, education, occupation, and mental health of the respondents. Demographic information includes age, sex, education level, household income, employment status, religious preference, political party affiliation, and political		Curation and dissemination of this study is provided by the institutional members of ICPSR, and data is available only to users at ICPSR member institutions. To determine if you are at a member institution, check the list of ICPSR member institutions, or learn more about becoming a member. ### Is Love Really Blind?

Collapse open tabs Printer Friendly version

Goal & Concept

#### Goal

The goal of this exercise is to explore some of the factors that influence the development of romantic relationships. Crosstabulations and comparison of

#### Concept

Modern Westerners brought up on a steady diet of popular songs and romantic movies tend to believe t both random and very subjective. Popular culture propagates the notion of "love at first sight" and teach "you can't help who you fall in love with."

Research shows, however, that this is not necessarily true and that, in reality, society aims Cupid's arrow into play in interpersonal attraction and mate selection. For one, we tend to be attracted to, and to marr and religious backgrounds, education level, political views, and social status. This is known in sociology a

In addition, scholars have shown that the pool of potential mates available to us is narrowed by routine play an important role in the development of relationships. In other words, we tend to meet our partners in the context of our daily activities, through our social networks, and after coming into contact with them repeatedly (this is known as the mere exposure effect, or the idea that familiarity breeds liking).

In this exercise we explore the concepts of homogamy, routine activities, social networks, and mere exposure by examining how similar respondents are to their partners on a variety of social characteristics and how they met and became involved with their partners.

Examples of research questions about interpersonal attraction:

- · What are the determinants of attraction or liking?
- · How important is similarity in choosing a partner? Does it matter more for some qualities than others?
- How do changing social norms influence homogamy?
- · How have technological changes affected interpersonal attraction and courtship?

# LEARNING CONTENT

This exercise will use data from the study How Couples Meet and Stay Together partners. It includes non-traditional couples. This study was conducted in three respondents and their partners including age, level of education, parents' level

about their relationship status, as well as the gender, ethnicity, and race of their current partners. They were also asked about their living arrangements with their partners; whether the couple attended the same high school, and/or college/university; or grew up in the same town. Information was collected on the legal status of the relationship (marriage, domestic partnership, or civil union), the city/state where the partnership was legalized, and how many times the

respondent had previously be Variables attracted, their earned incom their partner, how their paren This exercise will use the following variables: with respondents one and two arrangements, and reasons fo respondent was born outside her time living between birth

Hide

- Respondent's race (RESPONDENT\_RACE)
- Partner's race (PARTNER\_RACE)
- Does R have a spouse or partner? (QFLAG)
- · How old is partner? (Q9)
- R's age--7 categories (PPAGECAT)
- What is your religion? (PAPRELIGION)
- What is partner's religion? (Q7B)
- R's education--highest degree received (PPEDUC)
- What is the highest level of schooling partner has complete
- Political party affiliation 3 categories (PPPARTYID3)
- . Does [partner] think of him/herself as Republican, Demo
- Where did you meet your partner? (Q31\_1 though Q31\_8)
- Who introduced you to your partner? (Q33\_1 through Q33\_7)
- . How long ago romance with partner began, in years (HOW\_LONG\_AGO\_FIRST\_ROMANTIC)
- How long ago respondent met partner, in years (HOW\_LONG\_AGO\_FIRST\_MET)

For ease of interpretation, recoding variables is sometimes necessary or helpful. (Note: the online analysis package used here requires recoding variables for the sole reason of modifying or adding labels.) The following variables were recoded:

- . PPEDUC and Q10 measure respondents' and their partners' education respectively. Each variable contains 14 answer categories--too many for useful analysis. They were recoded into R\_EDUC and PARTNER\_EDUC by collapsing answers into 5 categories, ranging from "Less than HS" ("1"), to "Graduate/Professional degree" ("5").
- . The variable PPPARTYID3 asked respondents whether they were "Republican" ("1"), "Other" ("2"), or "Democrat" ("3"). Their partners' political affiliation is measured with variable Q12, where the answer categories are "Republican" ("1"), "Democrat" ("2"), "Independent" ("3"), "Another party" ("4"), and "No preference" ("5"). We collapsed answer categories for Q12 into "Republican" ("1"), "Democrat" ("2"), and "Other" ("3"). The new variable is PARTNER\_POLID. We then recoded PPPARTYID3 so the order of answer categories matched PARTNER\_POLID, and named the new variable R\_POLID.

### Application

In this exercise we explore the concepts of homogamy, routine activities, social networks, and mere exposure by examining how similar respondents are to their partners on a variety of social characteristics and how they met and became involved with their partn

#### Norm of homogamy

Race--The variables RESPONDENT\_RACE and PARTNER\_RACE provide information about the race of respon categories: non-Hispanic White, non-Hispanic Black, non-Hispanic Amer-Indian, non-Hispanic Asian/Pacific I: Because of low cell counts, we exclude non-Hispanic Amer-Indian, non-Hispanic Asian/Pacific Islander, and r on non-Hispanic Whites, non-Hispanic Blacks, and Hispanics.

("Main weight for partnered respondents") and use the variable QFLAG(1) ("Does respondent have a spouse

통계 분석 방법을 제시합니다.

Examine the results of the crosstab with RESPONDENT\_RACE and PARTNER\_RACE. What percentage of White respo White? Who are Black and Hispanic respondents most likely to choose for partners?

Age--To see whether respondents are partnered with people close to them in age, we can compare the mean age of partners (Q9) by respondents' age categories (PPAGECAT). For respondents aged 18-24, what is the mean partner age? What about respondents aged 25-34? Would you say that most people, regardless of their age, tend to choose partners within their own age group?

Education--The variables R\_EDUC and PARTNER\_EDUC measure the highest level of education achieved by respondents and their partners respectively. According to the results of the crosstab with R\_EDUC and PARTNER\_EDUC, who are college-educated respondents most likely to be partnered with? What

Interpretation & Summary

Think about your answers to the application questions before you click through to the interpretation guide for help in answering them.

### Questions

### Data-Driven Learning Guides

Stand-alone exercises that use online data analysis to teach social science concepts

These standardized exercises introduce (or reinforce) key concepts in the social sciences by guiding students through a series of questions and related data analyses. Analyses are preset so students can focus on content rather than mechanics of data analysis. To assist instructors with selection, guides are also categorized by the most sophisticated statistical test presented in the exercise.

View All (You can filter by analysis method on the results screen.)

### Exercise Modules

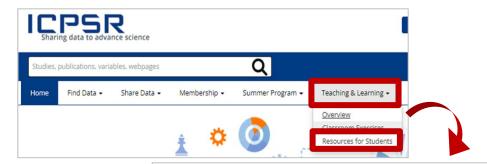

These resources are made up of sequenced activities. While assignments may be created using a few of the exercises in a set, the full package must be used to meet the stated learning objectives for each. Exercise Sets are often appropriate for Research Methods courses and more substantively focused courses.

- · Exploring Data Through Research Literature
- · Investigating Community and Social Capital
- Voting Behavior: The 2016 Election (SETUPS)
- Exercises at the Social Science Research & Instructional Center, using the 2014 General Social Survey
